PROFESSIONAL SUMMARY

Python developer with hands-on experience building Flask applications, REST APIs, and database-backed systems using PostgreSQL and MongoDB. Comfortable working across the full backend stack — from schema design to API implementation to third-party integrations — with additional experience integrating LLM-based features into production applications. Final-year B.Tech (AI & Data Science) student seeking a Python Developer role.

TECHNICAL SKILLS

Programming Languages : Python(Basics), Java(Learning).

Frameworks & Tools : Flask, Git, GitHub, Docker (Learning).

Web Technologies: HTML, CSS, JavaScript (Basics)

Databases: MongoDB, PostgreSQL (Learning)

Core Computer Science: Data Structures & Algorithms (Learning), Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Artificial Intelligence & Data: Machine Learning (Learning), Data Analysis (Learning), Prompt Engineering

Soft Skills: Problem Solving, Communication, Team Collaboration, Leadership, Time Management, Adaptability

ADDITIONAL EXPERIENCE & ACTIVITIES

Campus Ambassador — Unstop | *October 2025 – Present*

- Represent Unstop within the college community by promoting competitions, hackathons, internships, and career opportunities.
- Increased student engagement through event awareness campaigns, peer outreach, and registration support for national-level competitions.
- Strengthened communication, leadership, networking, and event promotion skills.

Digital Design Intern — Kisan365 | *April 2026 – June 2026*

- Designed digital creatives, banners, posters, and branding materials for social media campaigns and promotional activities.
- Collaborated with content and marketing teams to deliver visually engaging, brand-consistent designs across platforms.
- Gained practical experience in visual communication, branding, and creative design workflows.

ACADEMIC PROJECTS

Zyra — AI Recruitment & Interview Platform — Python, Flask, MongoDB, HTML, CSS, JavaScript

- Designed an AI-powered recruitment platform to automate candidate screening and interview workflows.
- Implemented resume screening, candidate evaluation, and interview management modules.
- Built a responsive web interface with backend integration.

Hair & Glow Salon ERP & POS System — Python, Flask, PostgreSQL/MongoDB, HTML, CSS, JavaScript

- Developing a salon management platform featuring appointment booking, billing, CRM, inventory, loyalty programs, and multi-branch support.
- Designed an enterprise-style database and administrative dashboard.

CodeRefine — AI Code Analysis Platform — Python, Flask, GitHub API

- Developing a code review platform that analyzes repositories, identifies issues, and assists developers with improvements.
- Focused on repository management and intelligent code quality analysis.

EDUCATION

- **B.Tech , Artificial Intelligence & Data Science** — AVN Institute of Engineering & Technology (INTUH) *Exp Graduation: 2027 | CGPA: 7.0*
- **Intermediate** — Word and Deed Junior College (69.6%, 2023)
- **SSC** — Ushodaya High School (CGPA 9.8, 2020)

CERTIFICATIONS & CLOUD CREDENTIALS

Google Cloud Skills Boost (2025)

- Milestone Credential: Level 3 – Cloud Development Essentials
- Earned the following Hands-on Skill Badges:
 - Implement CI/CD Pipelines on Google Cloud
 - Build Infrastructure with Terraform on Google Cloud
 - Develop Serverless Applications on Cloud Run
 - Deploy and Secure Serverless APIs with API Gateway
 - Use APIs to Work with Cloud Storage
 - Configure Service Accounts and IAM Roles for Google Cloud
- Skills: Google Cloud Platform (GCP), Terraform, Cloud Run, API Gateway, IAM, Cloud Storage, CI/CD, Infrastructure as Code (IaC)

IBM Developer Skills Network – Cognitive Class (July 2026)

- Python 101 for Data Science (PY0101EN)
- Issued by Cognitive Class and powered by the IBM Developer Skills Network.
- Skills: Python Programming, Data Science Fundamentals, Variables, Control Flow, Functions, Data
